

Introduction

MATLAB® Fundamentals for Aerospace Applications

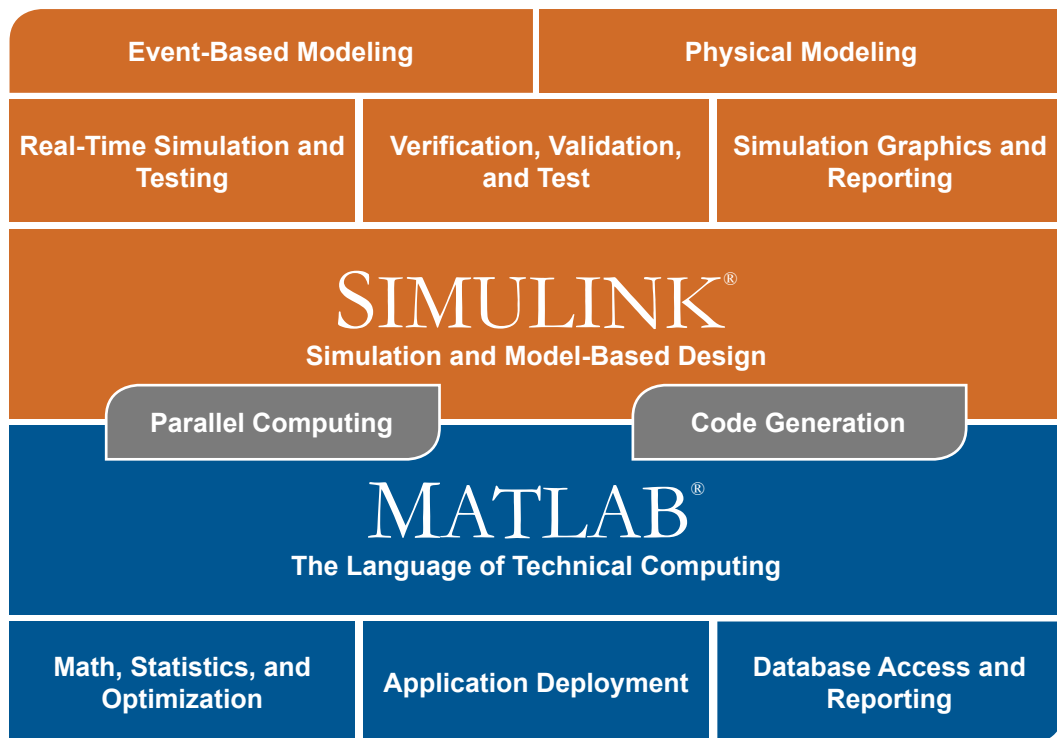

MathWorks® at a Glance

- Over 4000 employees worldwide
- More than 2 million users in 180+ countries
- Used by over 5000 universities worldwide

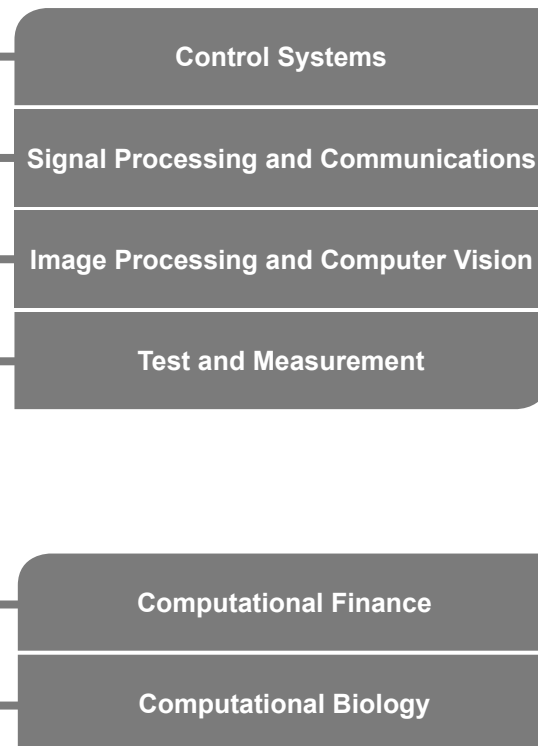

MathWorks® Product Overview

Simulink Product Family

Application-Specific Products

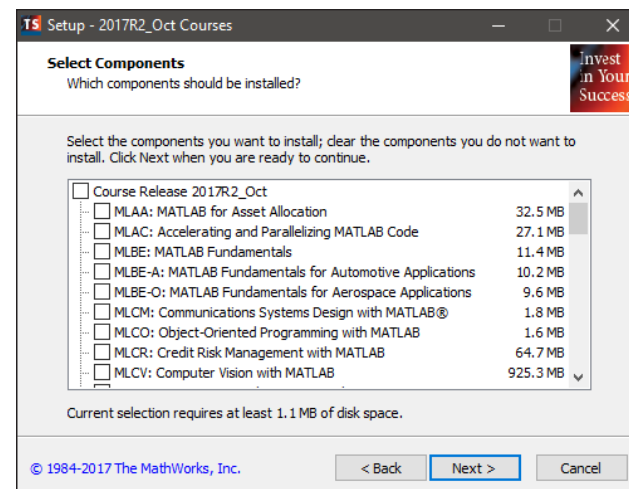

MATLAB Product Family

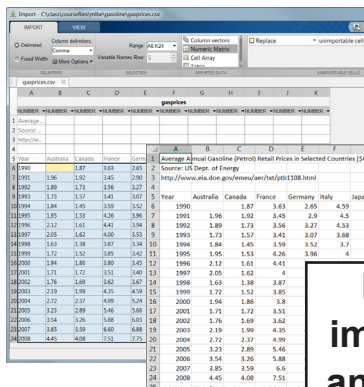

Computer Setup

1. Put the DVD in the DVD drive or plug in the USB drive.
2. Installer application will open automatically.
3. Follow the directions on the installer interface. A shortcut will be created on your desktop to start MATLAB for this class.

READY FOR CLASS!

What Can You Do with MATLAB®?

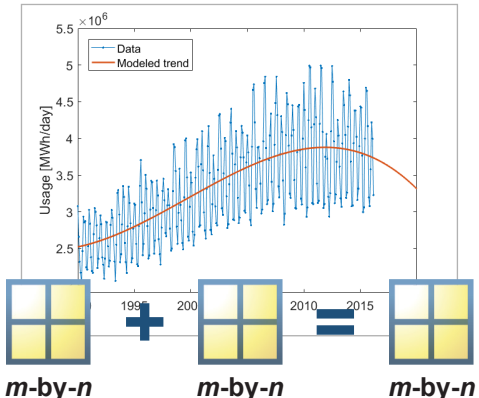

**Interactively
import, analyze,
and export data.**

7.17	7.41	7.70	7.73
7.48	7.61	7.78	7.79
7.57	7.79	8.01	7.80
7.69	7.98	8.03	8.13
7.96	8.14	8.38	8.56
8.10	8.32	8.61	8.74
8.18	8.38	8.54	8.73
8.24	8.41	8.56	8.73

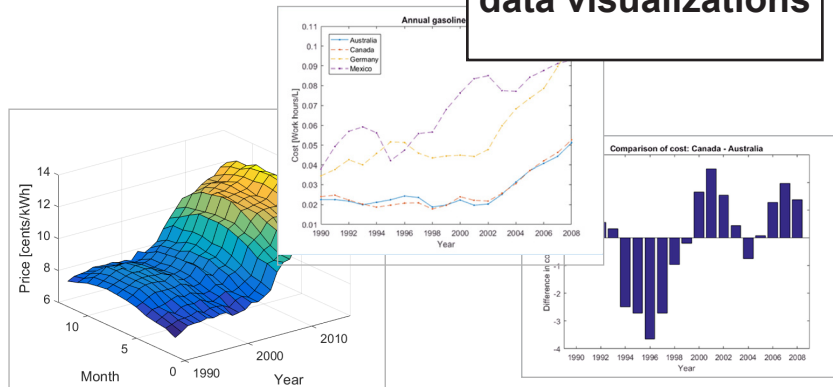

mean

7.8331 8.0397 8.2195 8.3236

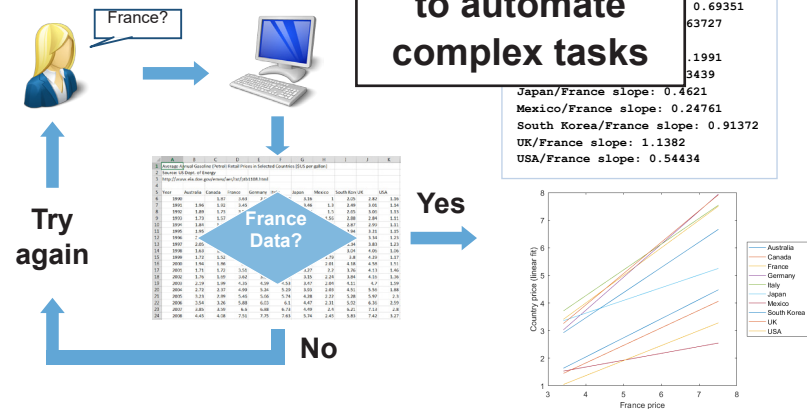

**Perform calculations and
analysis on data sets**

**Create informative
data visualizations**

**Write programs
to automate
complex tasks**

Course Outline

Day 1

- Introduction
- Working with the MATLAB® User Interface
- Variables and Commands
- Analysis and Visualization with Vectors

Day 2

- Analysis and Visualization with Matrices
- Tables of Data
- Conditional Data Selection
- Organizing Data

Day 3

- Analyzing Data
- Increasing Automation with Programming Constructs
- Increasing Automation with Functions
- Conclusion

Appendices

- MATLAB® Reference
- Exercises
